29 September 1965

MEMORANDUM FOR: Chief, Cartography Division, OBI

SUBJECT: Indochina Map Folio

1. Although I contributed little, I watched with keen interest and "sweated out" the production of the Indochina Map Folio. Truly it was the Cartography Division's most rigorous test.

2. It is, therefore, a great pleasure to me to compliment you on a superb job, now that I have seen the final results. The team work, the willing cooperation of many, the cartographic skill, and the level of sophistication are most evident. The fact that the job was completed "on time" and within a 60 day period reflects a master stroke of efficiency, hard-work, and keen planning.

3. Please convey to each person involved my sincere congratulations. I am very proud of the Cartography Division.
